

Kevin Paul for Colorado Senate

Protecting Children • Restoring Justice • Defending the Vulnerable

The Issue

- Children in Colorado and across the nation are being exploited, abused, and trafficked.
- Criminal networks profit from child exploitation due to weak enforcement and insufficient penalties.
- Current systems often fail victims while allowing repeat offenders to reenter society.

Why I'm Running

- To make the protection of children the top legislative priority in Colorado.
- To unify fragmented anti-trafficking efforts at the state and federal levels.
- To replace policies that endanger minors with laws that protect them.

Legislative Approach

- Increase consequences for traffickers and those who knowingly assist them.
- Fully support law enforcement with clear authority and resources.
- Ensure laws prioritize victims over perpetrators.

Day-One Priorities

- Pass legislation that strengthens penalties for child trafficking and exploitation.
- Hold public officials accountable for policies that place minors at risk.
- Redirect wasteful spending toward public safety and victim support.
- Work with federal agencies to dismantle organized trafficking networks operating in Colorado.
- Protect minors from irreversible medical procedures until adulthood.

- Ensure election integrity through transparent and lawful verification processes.

My Commitment

- Make Colorado one of the safest states in America for children.
- Relentlessly pursue justice for victims of exploitation.
- Serve as a steadfast guardian for families and communities.
